PhenX Toolkit

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The technical documentation for the 2020 decennial Census is available online at 2020 SF1 MS Access data: https://www2.census.gov/programs-surveys/acs/summary_file/2020/data/

Data Table:

https://data.census.gov/table?q=P5&d=DEC%20Demographic%20and%20Housing%20Characteristics

SF1 refers to Summary File 1 (the short form of the U.S. Census collected on everyone and referred to as "100% data"). Information about race along or in combination with Hispanic/Latino ethnicity is in table P5. The user can select the appropriate geography level (e.g., census tract) by clicking "Geos" button from the menu. The user can create tables and maps, extract data, or consult technical documentation. Users not familiar with Census data should consult the technical materials available at the U.S. Census website: https://www2.census.gov/programs-surveys/acs/summary_file/2020/documentation/.
