

## Data Collection Worksheet

**Please Note:** The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

*(Abstracted from the medical record/vital record)* Note: The investigator is cautioned to be sure to validate the record matching. Additionally, records matching could potentially be very time consuming and require high levels of investigator time (see Requirements Table). NEWBORN BIRTH WEIGHT (grams preferred, specify unit) \_\_\_\_\_ grams lb/oz
