

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The following protocol is part of a computerized interview. This may be used in a noncomputerized format. Also, the protocol may be used in personal and self-administered formats. How much did {you/[participant]*} weigh a year ago†? [If {you were/she was} pregnant a year ago, how much did {you/she} weigh before your pregnancy?]

Note to interviewer: ENTER WEIGHT IN POUNDS OR KILOGRAMS

|__|__|__| ENTER NUMBER OF POUNDS

CAPI INSTRUCTION:

SOFT EDIT 75-500, HARD EDIT 50-750

OR

|__|__|__|

ENTER NUMBER OF KILOGRAMS

CAPI INSTRUCTION:

SOFT EDIT 34-225, HARD EDIT 23-338

OR

777 [] REFUSED

999 [] DON'T KNOW

* When the question is being asked of a proxy respondent, insert the participant's name here. †This time period can be modified for different time periods. Depending on your hypothesis, you may want to modify the time interval as appropriate (e.g., 3 months, 6 months, 1 year).

Note to PhenX User: The National Health and Nutrition Examination Survey (NHANES) does not ask proxy respondents about a child's weight change. The weight change question for participants under age 16 years comes from Garmey et al. (2008).
