

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The Ages & Stages Questionnaires®, Third Edition (ASQ-3™) is a series of 21 age-specific questionnaires and scoring sheets designed to screen a child's skills in five developmental areas: fine motor, gross motor, problem solving, communication, and personal-social. A child's scores for each area are compared to cut-off scores to determine a need for monitoring or further assessment.

The Ages & Stages Questionnaires® is a registered trademark of Paul H. Brookes Publishing Co., Inc.
