

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The Block Design Test is an interviewer-administered test that is part of the Wechsler Adult Intelligence Scale®, Fourth Edition (WAIS®-IV).

The participants are given a picture and asked to use red and white blocks to recreate the design.
