

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The Early Adolescent Temperament Questionnaire (EATQ-R) may be obtained by completing the request form on Mary Rothbart's website (<http://www.bowdoin.edu/~sputnam/rothbart-temperament-questionnaires/>) and sending the form to the contact person indicated. Information about scoring the instrument is also available by request.
