

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Summary of the Passage Comprehension Subtest of the Woodcock-Johnson® Tests of Achievement (WJ IV®)

The respondent is asked to read a short passage and identify a missing key word that makes sense in the context of the passage.

Scoring Instructions

The Woodcock-Johnson® Tests of Achievement (WJ IV®) can be scored with either the offline method of estimated scores obtained from the Test Record (Mather & Wendling, 2014) or by using the scoring and reporting online format (Schrank & Dailey, 2014).
