Data Collection Worksheet

**Please Note:** The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Summary of the Peabody Picture Vocabulary Test-Fourth Edition (PPVT™-4)

The Peabody Picture Vocabulary Test-Fourth Edition (PPVT™-4) is available in two parallel forms (Form A and Form B) that are administered individually. Each form contains training items and 228 test items (not all items are given), each consisting of four full-color pictures as response options on a page. For each item, the examiner says a word, and the examinee responds by selecting the picture that best illustrates that word's meaning. The test content covers a broad range of receptive vocabulary levels, from preschool through adult. The items broadly sample words that represent 20 content areas (e.g., actions, vegetables, tools) and parts of speech (nouns, verbs, or attributes) across all levels of difficulty. The test can be scored by hand or by computer entry, using the PPVT-4 ASSIST™ scoring software.
