

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The PROMIS[®] Peer Relationships item banks assess self-reported quality of relationships with friends and other acquaintances during the past 7 days. This measure focuses on social development and engagement with peers.

To obtain materials for administering and scoring the PROMIS[®] Pediatric Item Bank v2.0 - Peer Relationships please visit Healthmeasures.net. These materials are available free of charge.

Translated versions of this protocol are available for purchase.
