

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Permission to use FACIT© scales can be obtained by completing a simple user's agreement. Registering will grant access to the scoring and interpretation materials. There is no cost for academic researchers, however, there is a cost at the commercial level. All translations, adaptations, symptom indices, computer programs, and scoring algorithms, and any other related documents of the Functional Assessment of Chronic Illness Therapy (FACIT©) Measurement System, including the Functional Assessment of Cancer Therapy (FACT), are owned and copyrighted by, and the intellectual property of, David Cella, Ph.D. Copyright protection is extended to electronic versions of all FACIT documents and products.
