

## **Data Collection Worksheet**

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Indicate how strongly you agree or disagree with each of the following statements by selecting a number between 1 (STRONGLY DISAGREE) and 7 (STRONGLY AGREE). The closer your selection to one end or the other indicates the strength of your agreement or disagreement If you don't agree or disagree with a statement, select the mid-point number 4. Please complete every item. We are interested in how you are thinking or feeling **right now** as you are filling out the questionnaire.
