

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Here is a list of reasons people give for drinking alcohol. Thinking of all the times you drink, how often would you say that you drink for each of the following reasons?

There are no right or wrong answers to these questions.

If you no longer use alcohol, please answer for when you used to drink.
