

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The Questionnaire about the Process of Recovery (QPR)

We developed this questionnaire in order to understand more about the process of recovery; what's helpful and what's not so helpful. Everyone is different and there will be differences for everyone. The items on this questionnaire were developed through a process of interviewing service users about their recovery journeys. We hope that by filling in this questionnaire you will help us find out information that is important to you and your own recovery. Not all factors will be important to you, since everyone is different. This questionnaire is not intended to be used to impose anything against your wishes.

If you would like to fill in the questionnaire, please take a moment to consider and sum up how things stand for you at the present time, in particular over the last 7 days, with regards to your mental health and recovery. Please respond to the following statements by putting a tick in the box which best describes your experience.

	Disagree strongly	Disagree	Neither agree nor disagree	Agree	Agree Strongly
1. I feel better about myself					
2. I feel able to take chances in life					
3. I am able to develop positive relationships with other people					

4. I feel part of society rather than isolated					
5. I am able to assert myself					
6. I feel that my life has a purpose					
7. My experiences have changed me for the better					
8. I have been able to come to terms with things that have happened to me in the past and move on with my life					
9. I am basically strongly motivated to get better					
10. I can recognise the positive things I have done					
11. I am able to understand myself better					
12. I can take charge of my life					
13. I can actively engage with life					
14. I can take control of aspects of my life					
15. I can find the time to do					

the things I enjoy					
--------------------	--	--	--	--	--

Scoring: Each item is rated on a five point scale (0 = disagree strongly, 1 = disagree, 2 = neither agree nor disagree, 3 = agree, 4 = agree strongly) and items are added together to give a total recovery score, with higher scores indicating greater recovery.
