

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Electronic Nicotine Products

Electronic nicotine products include e-cigarettes, pod devices, vape pens, tank systems, mods, e-cigars, e-pipes, e-hookahs, and hookah pens. Using these devices is often referred to as “vaping.” They are battery-powered and product vapor or aerosol instead of smoke. They typically use a nicotine liquid called “e-liquid”, although the amount of nicotine can vary and some may not contain any nicotine at all.

Some common brands include JUUL, Vuse, Blu, NJOY, eGo, Suorin, Bo, Smok, Phix, and Puff, but there are many others.

Please do not include marijuana or cannabis when answering the following questions about electronic nicotine products.
