

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The next questions are about **electronic nicotine products**. Some electronic nicotine products can be bought as one-time, disposable products, while others can be bought as re-usable kits with a pod, cartridge, or tank system. Some people refill their own electronic nicotine products with nicotine fluid, sometimes called “e-liquid” or “e-juice”.

Disposable products, pods, cartridges, and e-liquid come in many different flavors and nicotine concentrations. Some common brands include JUUL, Vuse, Blu, NJOY, eGo, Suorin, Bo, Smok, Phix, and Puff, but there are many others.

Please do not include marijuana or cannabis when answering the following questions about electronic nicotine products.
