

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Priapism

1. Did one or more episodes of priapism occur? (to be answered for males only)

Report Yes if the recipient experienced one or more episodes of priapism (with or without treatment) at any time between diagnosis and the start of the preparative regimen. If the recipient did not experience priapism or no information is available to determine if the recipient experienced priapism, report No or Unknown, respectively.

1 Yes

2 No

3 Unknown

2. Was surgery performed at any time to correct the blood flow?

If the recipient experienced an episode(s) of priapism, indicate if surgery was required at any time to correct the blood flow. Report Yes if surgery was performed at any between diagnosis and the start of the preparative regimen / infusion to correct blood flow. If surgery was not performed or if no information is available to determine if surgery was performed to correct blood flow as a result of priapism, report No or Unknown, respectively.

1 Yes

2 No

3 Unknown
