

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The next questions ask how you feel about different aspects of your life. For each one, tell me how often you feel that way in a typical week BEFORE and AFTER the COVID-19 outbreak in your region.

1. A typical week BEFORE the COVID-19 outbreak, how often do you feel that you lack companionship?

Hardly ever
