The process of developing this questionnaire was facilitated by Wellcome
Date lockdown to be used throughout UK: 23rd March 2020, Scotland 23rd March, Wales 23rd March
Change date to put in correct date for Northern Ireland as appropriate

Note: Skipped questions and questionnaire notes need to be adapted to the final version of the questionnaire being administered

In this questionnaire we are ask about self-isolation, social distancing and what you have been doing during lockdown. By self-isolation we mean not leaving home for any reason and possibly keeping away from other members of your household (if you or they are showing symptoms). By social distancing we mean minimising contact with other people outside the home. By lockdown we are referring to the announcement made by the government on Monday, March 23rd to stay at home, except for very limited purposes.
Section 1 | Covid related health questions

CORE QUESTIONS (Covid related health questions)

Covid-19 symptoms

1. We are interested in whether you have experienced any symptoms listed below since November 2019. Please complete the table for any of the symptoms you have had and in what month(s) you had them. Please complete for any symptoms and any months that symptoms were experienced irrespective of whether or not you saw a doctor and irrespective of whether or not you were told you had flu, or coronavirus disease 2019 (COVID-19) or any other diagnosis

If participant lives with other people

Only present these questions if participant doesn’t live alone. Continue to ask until all adults in house accounted for (so if three adults ask following Qs three times).

These questions are about each person living with you in the household. We will ask you about each person in turn. It is your choice as to which order you put them in, but it might help to order them in terms of their ages, oldest to youngest.

4. What best describes your relationship to this person? Please select from the list provided below.

Mental health in young people

-----------------------------FOR PARTICIPANTS WITH CHILDREN---------------------------------------------

Ideally, a short version of RCADS 25 could be used for people aged 8-17 years.

Currently only RCADS 25 exists (25 questions as opposed to 47 in the full scale). UNICEF are currently validating a 10-15 item questionnaire for use in population health surveys. This will be completed by end April and can be added then.
